

Dear Parent/Guardian,

Our school is using Lexia Reading Core5™, a web-based reading program that provides the targeted practice and instruction students need to develop their reading skills.

As an added benefit, students can use Core5 at home. Getting started is easy!

Launch a web browser and go to www.lexiacore5.com.

- iPad and iPad Mini users can download the Core5 app from the App store. Search for “Lexia Reading Core5.”
 - Android tablet users can download the Core5 app from the Google Play store. Search for “Lexia Reading Core5.”
1. The first time you access Core5, you must set up:
 - Click the Student/Parent button.
 - Type in your teacher’s email (below) and click the arrow button to continue.
 2. Allow or help your child to login. The student username and password (below) is the same login they use at school.

Teacher Email (for setup): moorej@district87.org

Student Username _____

Student Password _____

3. **Important!** Please allow your child to work independently at his or her own pace. Provide encouragement, but don’t give away the answers! Lexia adapts according to the individual needs of your child, and we strongly advise you do not help them through the program. It is best to let your child work on Lexia independently. If you think they are struggling on a particular skill, please ask your son or daughter to try another activity and we will work on the difficult skill at school.
4. Please try to ensure an average of 20-30 minutes per session. We recommend that usage be kept to a reasonable level – not too short and not too long.

Need more help getting started? Go to www.lexialearning.com and click **Support**.

Sincerely,

Mrs. Moore
